## Supporting Safer Communities in Northampton County

By State Rep. Ann Flood

I am thrilled to let you know more than \$920,000 in Local Share Account (LSA) grants have been awarded to municipalities in Northampton County to improve public safety and infrastructure.

Grants Awarded:

- Bushkill Township Police Department: \$150,000

Funding will be used to purchase 22 P25-compliant portable radios to improve interoperability and emergency response.

- Bushkill Township Volunteer Fire Company: \$150,000

The grant will support the purchase of 15 mobile and 35 portable P25 radios for enhanced communication with local and state agencies.

- East Bangor Borough: \$86,000

Funds will be used to install high-resolution surveillance cameras at critical infrastructure sites to improve security.

- Forks Township: \$275,000

The township will acquire a sewer camera truck to prevent pipe deterioration and sinkhole issues.

- Lower Mount Bethel Township: \$135,000

The grant will help purchase a John Deere utility tractor with a Tiger Boom Mower to improve road safety and reduce maintenance costs.

- Moore Township: \$124,000

Funding will be used to replace aging police vehicles with a Ford Police Interceptor Utility and a Ford Expedition 4x4.

These grants represent a significant investment in the safety and well-being of our communities. By upgrading critical equipment and infrastructure, we're ensuring first responders have the tools they need and residents benefit from improved services.

## PA Budget Invests in Reading Education

By State Rep. Ann Flood

With only about one-third of our fourth graders reading at grade level in Pennsylvania, this year's state budget makes a \$10 million investment in improving literacy education.

The 2025-26 Public School Code will require school entities – including school districts, intermediate units, area career and technical schools, charter schools, cyber charter schools and regional charter schools – to use evidence-based reading instruction, screen students early and intervene when a child is struggling.

The changes must be in place by the beginning of the 2027-28 school year.
