

# Landmark Legislation Signed to Impact Eastern PA National Heritage Areas and More

By Claire W. Sadler

Eastern PA. Last week, January 5, 2023, President Biden officially signed the National Heritage Area Act (S. 1942) into law. On December 22, 2022, the U.S. House of Representatives overwhelmingly approved the legislation by a bi-partisan vote of 326-95, after the Senate passed the legislation without opposition two days earlier. It was one of the last bills passed in the 117th Congress. Passage of this act will have long-lasting impact on local National Heritage Areas (NHAs) including the Delaware & Lehigh National Heritage Corridor, Lackawanna Heritage Valley National and State Heritage Area, and Schuylkill River Greenways National Heritage Area.

The National Heritage Area Act creates standard criteria for the funding, management, and designation of National Heritage Areas (NHAs) across the country and provides them with an annual authorization of funding for the next 15 years. S. 1942 also solves a challenge that as many as 45 existing NHAs would have experienced in the next two years, when their authorizations were set to sunset. Reauthorization requires Congressional approval, typically done through individual bills, but has been combined into an efficient package for this bill. S. 1942 also authorizes seven new NHAs.

"We now have the stability necessary to focus our energy where it's needed most and increase our meaningful, positive impact on the communities that call our National Heritage Area home. We want ev□

The DLNHC, a 501(c)3 non-profit organization headquartered in Easton, Pennsylvania that preserves the nationally significant historic transportation route that carried coal and iron from Wilkes-Barre to Bristol, represents one of many NHAs to receive reauthorization and funding from the passing of S. 1942. Covering the five eastern Pennsylvanian counties of Luzerne, Carbon, Lehigh, Northampton, and Bucks, and with signature programs like the D&L Trail and the National Canal Museum, DLNHC works to connect people to nature, culture, communities, recreation, economic development, and the region's enduring industrial heritage.

The National Heritage Area Act was championed by Representatives Paul Tonko (D-NY) and David McKinley (R-WV) in the House and Senators Debbie Stabenow (D-MI) and Roy Blunt (R-MO) in the Senate. The bipartisan bills are co-sponsored by 16 Senators and 138 House members (through the House companion bill, H.R. 1316).

NHAs are administered by a local coordinating entity and receive matching funds through the National Park Service but are not National Park units. In addition to Congressionally authorized matching funds, NPS provides technical assistance and a strong partnership. NHAs match every federal dollar with an average of \$5.50 in state, local, and private contributions, and a 2012 study determined that NHAs are responsible for a nearly \$13 billion economic impact in the communities they serve. In a 2017 economic impact study, it was estimated that the Delaware & Lehigh National Heritage Corridor generated \$474.7 million in economic impact, supported 5,665 jobs, and generated \$32.3 million in tax revenue for the five counties it represents.
