

# Veterans Day

Continued from page 1

Roseto American Legion 21 gun salute

And while we specifically pause to honor our veterans this "Veterans Day," I would encourage each and every one of you to make every day "Veterans Day."

Showing heartfelt appreciation and sincere thanks for those who have served our country should never be something that is relegated to one day out of the year. Develop a mindset of thankfulness and always give thanks to the veterans whom you meet on the street, in church, and throughout our communities.
