## From Landfill Gas to Energy: Students in Pen Argyl School District Benefit

By WM

PEN ARGYL - This year, through the beneficial reuse of landfill gas, The Green Knight Economic Development Corp. (GKEDC) awarded approximately \$100,000 in community grants and academic scholarships.

The community grants were awarded to 18 organizations in Wind Gap, Pen Argyl, and Plainfield Township that model the ideals of community service, environmental stewardship or community development. Six graduating Pen Argyl Area High School District graduates who have their eyes set on continuing their educations were awarded \$4,000 academic scholarships.

These students increase to 13 the number of district graduates who have received GKEDC scholarships in the last three years. The GKEDC has awarded more than 60 academic scholarships since the start of this program approximately 20 years ago.

The funds to support the community grants and academic scholarships are generated through the profits from the sale of the green electricity that is generated at the Green Knight Energy Center at Grand Central Landfill. The methane that is generated at the landfill by the decomposition of the waste is collected and sent to the Green Knight Energy Center where it is burned in the turbines to produce the electricity.

It is anticipated that both the community grant and academic scholarship programs will be continued in 2023. Visit GKEDC.org for announcements regarding the opening of both programs in 2023.

## DISPOSAL PRO

JUNK REMOVAL  
**570-234-9678**

We work with Homeowners, Renters, Estate Heirs, Business Owners, Real Estate Agents, Asset Management Companies.
