## Kicking Off the 2026-2027 State Budget Cycle

By Senator Rosemary Brown

One of my largest responsibilities as your legislator is to deliver a state budget that respects hardworking families and the taxpayers who fund it. The process of enacting a state budget for fiscal year 2026-27 began on Tuesday with the Governor's budget address, and just like any legislation, the budget must pass the House, Senate, and then be signed into law by the Governor.

The Governor proposed a \$53.3 billion that would increase state spending by \$2.7 billion, a 5.4% increase from last year's budget. Last year's budget created a \$4.8 billion structural deficit, requiring the use of nearly every available reserve fund to achieve balance. This year's proposal increases spending by another 6 percent, placing even greater strain on resources that are already significantly depleted.

Simply put, this level of spending outpaces revenue. It's just like a household budget – spending more than you earn and dipping into savings to cover recurring expenses. That's not responsible budgeting, and it's not sustainable for Pennsylvania.

The budget process will continue with in-depth public hearings by the Senate Appropriations Committee, beginning February 23rd. As a member of the Committee, I look forward to working with my colleagues to focus on responsible spending and ensure Pennsylvania taxpayers are treated with the respect they deserve.
