U.S. CONGRESS

WORKING FOR YOU

\$2,000,000

TO IMPROVE LOCAL AIR TRAVEL

2 million to support Lehigh Valley International Airport

By Congressman Ryan Mackenzie

I'm proud to announce that we have secured \$2 million to support Lehigh Valley International Airport (ABE). ABE is a major asset for our community — offering superior service and unparalleled convenience to passengers in the Lehigh Valley and the Poconos. Together, these strengths have enabled ABE to grow quickly and break passenger records every year for the past five years.

As ABE continues to grow and empower our community, we're working to prepare for the travel and infrastructure needs of tomorrow. By bringing this money back to our community, we're ensuring that ABE can continue offering superior service and unparalleled convenience to passengers in the Lehigh Valley and the Poconos.

—U.S. Congressman Ryan Mackenzie

Now, with this funding, ABE will be able to take this growth further than ever. The airport is preparing to break ground on the construction of a new parking deck and passenger walkway — further improving ABE's convenience and accessibility while laying the foundation for further growth. The \$2 million of Community Project Funding that we secured through a recently passed appropriations package will fund the installation of escalators and elevators for the passenger walkway.

As ABE continues to grow and serve our community, I'm proud to help bring resources back home to support its long-term success. I previously

worked with colleagues to support improvements at ABE while serving as a State Representative, and I'm honored to continue that work in Congress.

In addition to this airport funding, I was able to secure \$12 million for local projects throughout the Lehigh Valley and the Poconos. These investments strengthen public safety, support our first responders, improve roads and bridges, and expand opportunities for families across our region. Earlier this month, I also announced \$47 million in funding to support the continued manufacturing of Mack Defense heavy dump trucks.

I'll keep working to bring resources home to the Lehigh Valley and the Poconos.
