## Da Vinci Science Center

Real-World Business Connections: Students will be connected with local businesses to explore the science and engineering behind real-world careers. These meaningful partnerships help students see themselves as future innovators and professionals, bridging the gap between classroom learning and the dynamic opportunities available in the regional workforce.

"Fulton Bank's commitment to our community is truly inspiring," said Lin Erickson, Executive Director and CEO of Da Vinci Science Center. "This investment allows us to reach more students with the kind of transformative, hands-on STEAM experiences that open doors and change lives. Together, we are building a pipeline of talented young people ready to contribute to the Lehigh Valley's innovation economy."

"Through our Fulton Forward® initiative, we support workforce development efforts that can help introduce students to potential future careers," said Kenneth Remick, Senior Commercial Relationship Manager at Fulton Bank. "We are grateful for the work of Da Vinci Science Center and the opportunity to collaborate with them to fulfill our purpose to change lives for the better."

Pennsylvania's Neighborhood Assistance Program (NAP) provides tax credits to businesses that make contributions to approved organizations addressing neighborhood needs. Fulton Bank's participation in the program reflects its deep commitment to the communities it serves and its recognition of STEAM education as a cornerstone of regional economic vitality.
