35 Acres Preserved in Plainfield Township

By State Rep. Ann Flood

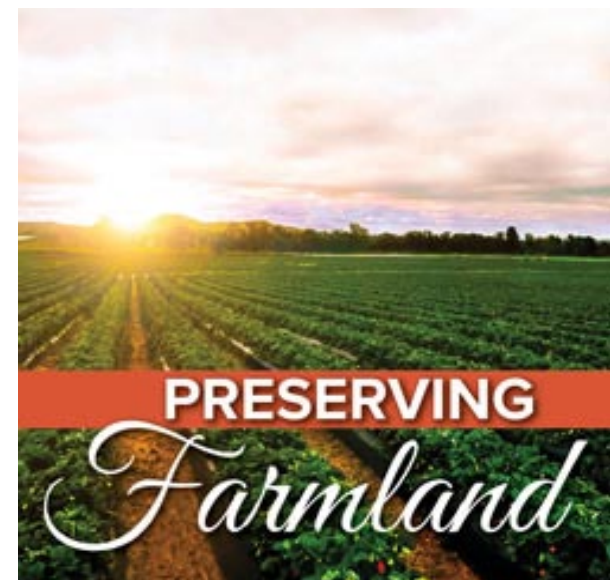

I'm proud to share that 35 acres of farmland in Plainfield Township will be permanently protected from residential and commercial development through Pennsylvania's Farmland Preservation Program.

The Huratiak Homes LLC crop farm is among 34 farms totaling 2,565 acres that were recently approved for preservation across 16 counties. Together, these projects represent more than \$9.1 million in investment to protect valuable farmland and keep it in agricultural production.

Pennsylvania has now preserved 6,759 farms totaling nearly 670,000 acres across 58 counties. Since the program was established in 1988, more than \$1.82 billion in state, county and local funds has been invested to preserve Pennsylvania's farmland.

Protecting farmland is about more than preserving open space. It helps maintain our agricultural heritage, supports our farming communities and ensures future generations have the land they need to continue producing food, fiber and fuel.

I'm glad to see this investment benefiting our community and helping ensure this 35-acre farm remains farmland for generations to come.
